

IRATA Level 3 Rope Access Technician (Supervisor)

Duration	5 days
Venue	Lyon Equipment Work and Rescue Training Centre, Tebay, Cumbria
Course code	LT03

The Petzl Technical Institute
for UK & Ireland
Petzl Product Training

Who is this course for?

IRATA level 2 technicians wishing to upgrade to level 3 rope access technician (supervisor).

Qualification

A level 3 rope access supervisor shall be capable of taking complete responsibility for rope access safety during work projects and will be conversant with relevant work techniques and legislation. To be able to demonstrate all the skills and knowledge of levels 1 and 2, have a comprehensive knowledge of advanced rescue techniques and the IRATA certification scheme and be familiar with the contents of the IRATA International Code of Practice.

Prerequisites

1000 hours and a minimum of 12 months experience as an IRATA level 2. This experience shall include a wide variety of work situations and techniques.

The minimum age of candidates is 18 years.

Candidates should be physically fit and free from any disability or medical condition that may prevent them from working safely at height. They shall ensure that they have an adequate level of fitness, and are physically able to perform the tasks expected in terms of strength, agility and co-ordination, and are able to withstand the stresses of the working environment such as heat, cold, and other inclement weather. (If unsure, please contact us).

Candidates must hold a current First Aid Certificate.

Course Content

The course will cover all the skills and knowledge required of level 1 and 2 technicians

The rescue and rigging techniques of level 1 and 2

Advanced rescue systems

Advanced pulley systems

Equipment inspection, documentation and maintenance

Worksite organisation and planning

During the course candidates will be required to demonstrate knowledge of a variety of work environments and experience of the topics being covered

Assessment

1 day independent practical assessment and written examination.

Certification

Upon successful completion the candidate will receive an internationally recognised certificate of competence in rope access, an IRATA log book, IRATA ID card and a copy of the IRATA 'International Code of Practice' and 'Training Assessment and Certification scheme'.

All IRATA qualifications should be renewed within three years of the date of the assessment. Revalidation consists of a full assessment at the required level.

All of our courses are delivered in accordance with BS8454:2006 – Code of practice for the delivery of training and education for work at height and rescue. Full details of our insurance cover for trainees are available upon request.

Please see our course booking form for our training course terms and conditions.
